

FOIA - EXEMPT
ENFORCEMENT CONFIDENTIAL/ATTORNEY - CLIENT PRIVILEGE

August 3, 1998

E.1
8/3/98

S. Ewing

- ▶ visible air emissions
- ▶ pile has been moved
- ▶ fluff pile 2-3 times bigger
- ▶ 7 separate piles
- ▶ hug pile crushed autos
- ▶ proof of water with sheen
- ▶ water treatment with sludge in bottom (clarifier abandoned)
- ▶ every pile except non-ferrous metals
- ▶ Stream of Water coming from piles
- ▶ no obvious outflow to canal

Eddy Current - 96th St.

- ▶ No water
- ▶ not located close to canal
- ▶ no pools of water
- ▶ no air emissions visible
- ▶ 18 piles
- ▶ Guaranteed auto fluff
- ▶ autofluff shipped to out of state landfills as special waste
- ▶ fluff, non-ferrous metals, piles second time through shredder, piles going back through shredder
- ▶ piles with scrap metals - large process

Cometco Corp. - 1509 W. Cortland

- ▶ no shredder
- ▶ metal compactor
- ▶ metal almost pure steel
- ▶ probably no non-ferrous piles
- ▶ pond on facility - nasty looking, close to waterway
- ▶ waste pile by pond
- ▶ concrete storage areas
- ▶ tank-waste storage, no secondary containment

City Centre - 350 N. Artesian

- ▶ no Water
- ▶ shredder
- ▶ 6 piles processed materials, 1 pile raw
- ▶ 2-3 piles off to side (far side of site, near building)

- ▶ large pile (grey) been there awhile, another with grass growing on it
- ▶ waste piles on south side of facility
- ▶ piles of railroad ties near SE facility border - possibly I-beams

CIM - 2232 S. Blue Island (*1 of 2 largest facilities)

- ▶ shredder
- ▶ lots of water standing - no obvious outfall
- ▶ white goods and cars
- ▶ 3 piles shredded material
- ▶ older piles
- ▶ SE side - tire piles, abandoned tank
- ▶ some other processing - shredder attached to building

*CIM - 2500 S. Paulina (*1 of 2 largest)

- ▶ permit for shredder, sweat air furnace, diesel tank
- ▶ dozens of piles in all stages of process
- ▶ right on canal - no standing water
- ▶ shredders located next to canal - different type than previous sites

*two sections connected by small access road

C. Shredding - 3151 S. California

- ▶ previously inspected → if need to skip, this is the one
- ▶ actively shredding
- ▶ accumulated fluff, but being regularly managed
- ▶ sampling - no RCRA metals
 - 5-6 samples > 50 ppm PCBs
- ▶ something other than shredding - mystery equipment
- ▶ may have piles other than fluff

AM Cozzi Metals - 4015 S. Ashland

- ▶ no shredder, no shredder waste → low priority
- ▶ sloppily - run → hap hazard piles, broken-down equipment
- ▶ no standing water
- ▶ open dumping of tires, 55-gallon plastic drums
